This Directory is conceded to contain the most accurate and complete list of druggists ever compiled.

Every effort has been made to secure complete and reliable data and the ratings given are, no doubt, the most careful estimation that can be made, although it is not claimed that the figures given on the financial standing and credit ratings are in every case exact.

The task of compiling this directory is so great that errors and mistakes cannot be avoided, so we do not assume any responsibility for the correctness of the ratings herein either to the users of the directory or to the firms listed in it.

A large percentage of the ratings given are from actual statements sent in by druggists themselves and verified by our correspondents. We have also been ably assisted by a large number of bankers, traveling salesmen, credit agencies and a great many wholesale and manufacturing firms.

provides addressings to—

Physicians	Retail druggists
Interns	Chain stores
Osteopaths	Chain store buying offices
